

Burswood Park

20 YEAR VISION

Burswood Park Board has developed an ambitious 20 Year Vision to ensure the Burswood Peninsula realises its destination potential and to create a world-class, cultural, environmental, and recreational showpiece for Western Australia.

The concept for Burswood Park encapsulates 'a Park for Everyone' sentiment, with the vision structured around a series of themed precincts connected by pathways, boulevards, boardwalks and trails.

RIVERSIDE PRECINCT

The riverside precinct will feature three distinct hubs:

An activity hub featuring an iconic Western Australian themed mini golf course and café outlet.

The water hub will create memories and meaningful connections, bringing communities closer to the river's edge; next to a highly activated nature play, contemporary playground space and food and beverage outlets.

A cultural hub where the Wadjuk Noongar community will work with artists and designers to create a unique experience and cultural attraction of international significance.

FESTIVAL PRECINCT

With a 10,000+ capacity outdoor performance bowl. The only large-scale open-air venue in Perth, permanently set up to host world class performances, cultural and community events.

FOREST PRECINCT

To explore wildflowers, jog a looping trail, be inspired through art and rest in natural garden settings.

The Quay, an ambitious element of the vision, is to feature an inlet connecting the river to Crown, creating a vibrant hospitality precinct with a promenade, jetty and exciting island play zone.

The vision contemplates a stronger utilisation of existing Burswood Park land to encourage higher levels of activation and facilitate avenues for securing revenue to fund park improvements.

In developing the park’s vision, consideration has been given to the needs of our growing city. It places Burswood Park’s important parkland within the context of an increasingly interconnected world with higher levels of visitation anticipated from both the local community, as well as inter-state and international tourists.

The plan has a 20 year framework, identifying projects over the short, medium and longer term and acknowledges the work required by both the private and public sectors to come together to realise the ideas within the more ambitious precincts.

NEXT STEPS

The next step in realising Burswood Park’s 20 Year Vision will include feasibility studies and economic impact assessments.

Implementation of the vision is still being carefully considered and discussed with a range of stakeholders, including relevant State Government agencies. The results of feasibility studies will inform the sequence and timing of the next steps towards realising the 20 Year Vision.
